

Environmental Policy Statement

Chaplin Bros. (Birmingham) Limited is a company that is highly committed to the preservation and improvement of the environment. The aim is not just to control, but to reduce and prevent, the possible generation of pollutants to our environment.

Our system of environmental administration has given all our employees and staff with an extra added awareness with the goal that they not only comply within our facilities, but that they also take this to their homes where respect for the environment becomes a way of life.

At Chaplin Bros. (Birmingham) Limited we are involved in the manufacture of drawn wire and regard quality, the environment, the safety of our workers and that of our facilities, in addition to the wellbeing of the community where we operate as principles of sustainability and development. For this we are committed to:

- Prevent, reduce, or control wastes and residues in order to avoid polluting the environment while using natural resources, raw materials, and energy sources efficiently.
- Seek the improvement of our operations through better practices, processes or equipment that will lead us to better environmental performance.
- Comply with legal requirements, and beyond that, with voluntary requirements related to the environment aspects of our activities, products, and services.

Mr Richard Hamilton

Managing Director
